

Product Adding

The Company: Online Selling Company

Location: USA

Job: To Add New Product into there portal.

The Objective: Enter accurate and 100% error-free data from different types of Products into web based application.

The Solution:

- Careful sorting of the scanned forms to eliminate inaccurate classification.
- Assigned a dedicated team of data operators who completed 500 to 1000 products in a week time.
- 100% Audit at the end of the data entry to maintain the quality of the document.

Benefits:

- It offered 100% accuracy in the data; which ultimately resulted into satisfaction among the end-customer.
- Leveraging latest technology diminished the turnaround time, subsequently reducing the costs.

Sample of Work

The screenshot displays a web application interface for adding product details. The main content area is titled "Offer Details" and contains the following information:

- SKU:** 23-F219W-PB-RC
- MPN:** 23-F219W-PB-RC
